	Ref 61** Twin switched latching RCD		Ref 91S*** 6 x LJ6C apertures (22.4x36.4mm)
	Ref 62** Twin switched active RCD		Ref 92*** 4 x Alphasnap aperture 23.5x47.5mm
	Ref 75**** 1 x 1 gang & 1 x 13A		Ref 93*** 4 x LJ6C apertures angled plate

Staggered power plates providing space for moulded plug tops

Prefix the plate reference with 5 to suit a 500 or 700 series floor box, 23 for the 2000 series 3 compartment box and 24 for the 2000 series 4 compartment box. Note that due to the width the prefix 24 plates cannot be supplied for all plates.

\* Virtually any plate request can be accommodated, including non standard sockets and dished plates to provide increased plug top space

\*\* For boxes 85mm or deeper only

\*\*\* Standard outlets 22.4x36.4 for Hellermann Tyton, Modsnap, Austin LJ6C modules. Can be used with cat 6 for boxes of 85mm or deeper. Ref 592 Alphasnap aperture 23.5x47.5mm

\*\*\*\* Not for the 2000 series 4 compartment box, or the 700 round 7RO.

LJ6C modules available:

SBOX-LJ6C BLANK - blanking module

SBOX-DATA-CAT5E - Cat5e data module to fit type 91 plates

SBOX-DATA-CAT6 - Cat6 unshielded data module to fit type 91

Standard plates for the SBOX-7S 150x150mm square floor box:

Ref 7RS-01	Blank plate		Ref 7RS-581GAN	Standard 1 gang outlet
